

**REPORT
OF THE
REGIONAL VICE-PRESIDENT
NEWFOUNDLAND/LABRADOR
Robert Chafe**

Report covering from November 2017 to May 2018

- Attended two RUMCC's and ROHS's, myself and the locals' representatives brought forward issues such as Phoenix, drinking water quality aboard vessels, use of casuals, grievance decisions made at first and second level and also the lack of LUMCC's
- Met with directors of C&P and Resource Management to establish quarterly LUMCC's
- Formed staffing review group with Director of Science and PIPSC to meet monthly, to review staffing decisions and comment.
- Signed Joint Learning Plan extension for Harassment Free Workplace and Mental Health JLP one day courses. The Harassment Free Workplace course is mandatory for employees and management.
- Held a bilateral meeting with RDG, Todd Panas and myself to discuss issues in the workplace facing our members
- Many discussions with Local presidents about issues their locals are facing, the three locals with C&P members are facing many issues with appendix K, Appendix C, and receiving the allowance that was negotiated in the last round of negotiations. With the all locals there is a common theme that the level of respect being shown our members by management is constantly decreasing.
- In process of arranging quarterly conference calls with all presidents to discuss issues with each local and the region overall. These will help us to understand each other's issues and to be more united when sitting at the RUMCC'S.
- I have also along with labour caucus on the NAFC Building OHS committee pushed for an epidemiological study of NAFC due to the seemingly high rate of illness and death to our members who work in this building.

- February 14, 2018 Local 90728 held their AGM the newly formed executive is as follows
