

**REPORT  
OF THE  
UHEW ENVIRONMENT COMMITTEE  
Fall 2020**

Committee members:

Marc Blanchard (Chair)

Robert Chafe

Richard May

The Environment Committee continues to correspond via email and meet through teleconferences though work schedules have made it difficult for the group to meet as a whole.

Committee activity for the last several months has been low mainly due to COVID and other issues taking priority.

After waiting a number of months the committee did finally receive word that the “Goodbye Plastic” campaign that the Committee submitted to the PSAC was given final approval to proceed. The PSAC will now be working with the UHEW to develop the joint campaign and the Environment Committee hopes to be actively engaged in that process. More to come on this in the future.

Stay safe and go Green!

Respectfully submitted by

Marc Blanchard

Committee Chair
